- You receive your user-name and password via e-mail (should you lose your password, you can use the “Forgot Password link” on the login-screen).
- The spare-parts being sold, are organized by supplier, in separate auctions.
- The auctions start sequentially and will run on average 72 hours (+ weekend).
- Ebusco reserves the right to extend the duration.
- If there are bids being placed in the last minutes, the auction is automatically extended by 15 minutes – to give other bidders a chance to react.

HERE SOME FINAL TIPS

- Place your bid early on the first day of the auction / we strongly recommend not to bid in the last minutes or seconds => otherwise if your network / provider has any internet issues, your bid will not arrive in time.
- If you want to win, watch the last 15-30 minutes before the closing of the auction....to react should any bidder overbid you in the last minutes and e.g. trigger an overtime.
- You can put any bid that is higher than your last bid (and the minimum price) => However chances are maximized if you are higher than the best bid.
- If you have problems with your browser, try using another browser.
- If you do not remember your last bid (or got lost putting new values) use the “Restore last valid offer” button on the top
- On weekdays 9:30 – 16:30 if you are really stuck, you can also contact the auction hotline.

Hotline telephone: 0036-1-311-6012

- Questions concerning the spare parts, transport and payment please address to Ebusco by e-mail.

Good luck and thank you for your participation
